Objective
As a dedicated and forward-thinking Computer Science student at IIT Goa, I am eager to
leverage my expertise in data science, data engineering, and advanced analytics as a Consultant
in Advanced Analytics & Artificial Intelligence. My passion for innovative problem-solving
positions me to significantly impact clients' digital transformation journeys and drive insightful
decision-making.

Education
Bachelor of Technology in Computer Science
IIT Goa, India
Expected Graduation: June, 202

Professional Experience

Internship, Technology Analyst
ProcDNA, [Gurgaon, Haryana, India] — Jan,25 to Present
- Collaborated closely with data engineers, data scientists, and industry experts to design and
deploy scalable applications, focusing on predictive analytics and automation.
- Engaged directly with clients to thoroughly understand their business objectives, translating
these insights into innovative technical solutions and bespoke machine-learning models that
effectively analyzed complex datasets.
- Took ownership of software components, ensuring their robustness and scalability, while
actively contributing to the architectural design of the projects.

Technical Proficiencies
- Languages: Proficient in Python, R, and Excel
- Machine Learning Frameworks: Deep expertise in Scikit-learn, TensorFlow, PyTorch
- Data Visualization: Advanced skills in Power BI and Tableau
- Cloud Technologies: Proficient in Azure (Databricks)
- Data Engineering: Experience in developing robust ETL pipelines, metadata management, and
leveraging containerization strategies.

Soft Skills
- Exceptional analytical and strategic thinking capabilities, complemented by a strong
entrepreneurial spirit.
- High emotional intelligence and a collaborative mindset, facilitating effective teamwork.
- Outstanding communication skills, adept at influencing stakeholders at all levels of an
organization.
Languages
- Fluent in English (C1)

Interests
- Avid learner in the fields of AI and cloud technology; actively participate in hackathons and tech meetups to continually expand my knowledge and skills.
Thank you for considering my application. I am eager to bring my skills and innovative mindset to the Siemens Advanced Consulting team, contributing to transformative projects that drive digital advancement for our clients.

Sincerely,
Prakhar Gupta
